

2020 LINEUP

OUR BARRELS MAKE THE DIFFERENCE

A HISTORY OF PRECISION

With the most technically-advanced barrel manufacturing techniques, state-of-the-art machinery, and an unwavering commitment to quality, Bergara Barrels has become the barrel source of numerous top-tier gun manufacturers in both Europe and the United States. Now, with Bergara Rifles we are producing a full line of precision rifles engineered and built to showcase the performance capabilities of our world-class barrels.

At Bergara, we believe that a precision rifle requires not only the best components, but also an assembly process that is carried out by individuals who are the best of the best at their craft. For this reason, we brought together a team of the world’s most talented and experienced rifle builders – first in the USA for our Custom Series and Premier Series, and now in Spain for our B-14 Series.

It all began several years ago when we first began with a small line of custom rifles and one top-notch craftsman, the former Production Chief and Chief Instructor for the United States Marine Corps Precision Weapons Section. As Bergara rapidly grew, we then assembled a hand-picked group.

Today, that team forms the core of our production team. They pass on their knowledge and expertise to every new employee, thereby bringing their own real world experience and expertise to every Bergara rifle.

EVERY RIFLE STARTS WITH A PRECISION BARREL

STEP 1 BARREL STRAIGHTENING

Each Bergara barrel must begin with a straight bar of cylindrical steel. We inspect every bar to ensure it meets a deviation of less than 4/1,000 (or .004) of an inch. Many barrel manufacturers never even evaluate this aspect of a barrel and consequently hinder the barrel’s accuracy potential.

STEP 2 DEEP HOLE DRILLING

Once the steel bar is straightened, it moves on to a four spindle deep hole drilling machine where a specialized bit drills a perfect hole through the entire length of the bar.

STEP 3 BARREL HONING

Most other barrel manufacturers move from deep hole drilling to reaming, a process that leaves tool marks in the bore. Instead of reaming, Bergara uses three separate honing spindles that utilize diamond tipped bits that polish the interior surface of the barrel to a mirror-like finish that is almost completely free of tool marks. This time-consuming step lends Bergara a level of accuracy on par with barrels costing much more.

STEP 4 BUTTON RIFLING

A carbide rifling button is drawn through the barrel to produce the rifling grooves at the appropriate twist rate for each caliber. This produces a groove diameter deviation of less than 2/10,000 (or .0002”) of an inch. It’s the same result that many gunsmiths accomplish by hand lapping.

STEP 5 STRESS RELIEVING

Finally, a high temperature heating process realigns the steel molecules ensuring that the barrel is free from any stress after the button rifling process.

PREMIER SERIES

Think of our Premier Series as an extension of our Custom Series, but with standardized features for greater efficiencies in parts production and assembly – providing near custom performance at prices that are affordable to serious shooters.

Bergara’s premium stainless steel barrels receive a proprietary honing process at our barrel-making facility in Bergara, Spain. Then, at the Bergara USA factory, the barrel receives a Cerakote™ finish and is coupled with our proprietary Bergara PREMIER action, featuring a nonrotating gas shield, coned bolt nose, and sliding plate extractor.

Premier Series rifles are built by hand and offer each shooter a wide variety of stock options. Choose from multiple carbon fiber, fiberglass, composite, and precision machined chassis stock offerings. All Premier Series rifles are built around legendary Bergara barrels and feature world-famous TriggerTech® triggers, among other industry-best components. All rifles are hand assembled in house by our qualified builders to our exacting standards and precise specifications and are guaranteed to produce sub-MOA groups using factory ammunition.

FEATURES

BERGARA PREMIER ACTION	• Premium stainless steel with Cerakote™ finish • 2 locking lugs located on the front of the bolt head • Separate “floating” bolt head assures contact with lug abutments • Cone-shaped bolt nose assures smooth feeding • Sliding plate extractor • Ejector is a spring loaded plunger located in the bolt face • 1-piece stainless steel bolt body with threaded-in bolt handle • 90° bolt throw angle • Firing assembly is bayonet style allowing quick access to the firing pin assembly. Simply twist the bolt shroud and the entire firing assembly can be removed without tools
BERGARA BARREL	• Made from Premium stainless steel • Cerakote™ finish • All Premier Rifles are guaranteed to produce sub-MOA groups at 100 yards using quality factory ammunition
TRIGGER	• All Premier rifles feature externally adjustable TriggerTech® triggers and Frictionless Release Technology™ as standard equipment
SAFETY MECHANISMS	• The 2-position safety is part of the trigger assembly. It allows the rifle to be unloaded while in the safe position • Non-rotating gas shield behind the bolt head protects the shooter from gas and debris in the event of a case or primer rupture
BARRELED ACTIONS	• Barreled actions are available in many configurations. Go to BergaraUSA.com for more details.

B-14 WILDERNESS SERIES

B-14 WILDERNESS SERIES

Bridging the gap between the B-14 and Premier Series, we bring you the B-14 Wilderness Series. This series tackles the need for rifles that can withstand the rugged and unforgiving wilderness while blending into those very same elements – hence Bergara’s hand-painted camouflage stocks with added webbing for increased texture and grip. All Wilderness Series barreled actions feature Sniper Grey Cerakote® finishes for advanced protection in extremely harsh weather. The Terrain, HMR, and Ridge models also feature a seamless, omnidirectional, and multi-ported muzzle brake that will reduce felt recoil by up to 35 percent.

The B-14 Wilderness Series provides a great deal of added value for the hunter that wants a no-nonsense performer that is built to withstand the backcountry. We are breaking through the uninhabited and inhospitable regions to bring you the weather protection needed to withstand these conditions.

We believe the word wilderness, while may be rugged, harsh and unforgiving, describes an experience rather than a location. We built the B-14 Wilderness Series to match every stride taken off the beaten trail.

FEATURES

BERGARA B-14 ACTION	• Spring-loaded ejector • Side-mounted bolt stop • One-piece body with two locking lugs • 90° bolt throw angle • Cone-shaped bolt nose ejector - assures smooth feeding • Sliding plate extractor • Hinged floor plate or detachable magazine • Cerakoted® Sniper Grey
BERGARA BARREL	• Made from 4140 CrMo steel • Cerakoted® Sniper Grey • 1.0 MOA accuracy guaranteed
TRIGGER	• All B-14 Rifles feature a Bergara Performance Trigger
SAFETY MECHANISMS	• The two position safety is part of the trigger assembly. It allows the rifle to be unloaded while in the safe position.
STOCK	• All Wilderness Series rifles feature Bergara’s hand-painted camouflage

B-14 SERIES

Our B-14 Series brings Bergara quality and accuracy to a line of rifles that is affordable to almost any serious big-game hunter or shooter. Built in Spain at our state-of-the-art production facility, our highly-efficient manufacturing and assembly techniques allow us to deliver a rifle with a level of quality and performance that is unmatched for the price.

B-14 Series rifles feature the world-famous Bergara barrel, which is complemented by our own super-smooth B-14 Action. This action features a coned-bolt nose and breech, ensuring smooth feeding and a sliding plate extractor for proper alignment.

The Bergara 4140 CrMo steel barrel is finished in matte blue. Lengths and contours vary by model. Stocks are designed in various styles to ensure proper fit for every shooter.

The BMP Chassis rifle features a machined aluminum chassis stock that provides stability, adjustability, and versatility. The HMR features a built-in Mini-Chassis that offers repeatable bedding and maximizes accuracy by supporting a fully floated Bergara barrel.

The Timber model features Monte Carlo styling in hand-graded oil-finished walnut. The Hunter and Ridge models sport a lightweight synthetic stock designed to withstand the elements. Both the wood and synthetic stocks are bedded with integral pillars for stability and enhanced accuracy. All B-14 rifles are guaranteed to produce 100 yard groups of 1.0 MOA or better with quality factory ammunition.

FEATURES

BERGARA B-14 ACTION	• Spring-loaded ejector • Side-mounted bolt stop • One-piece body with two locking lugs • 90° bolt throw angle • Cone-shaped bolt nose ejector - assures smooth feeding • Sliding plate extractor • Hinged floor plate or detachable magazine
BERGARA BARREL	• Made from 4140 CrMo steel • Matte blued finish • 1.0 MOA accuracy guaranteed
TRIGGER	• All B-14 Rifles feature an adjustable Bergara Performance Trigger
SAFETY MECHANISMS	• The two position safety is part of the trigger assembly. It allows the rifle to be unloaded while in the safe position.
BARRELED ACTIONS	• Barreled actions are available in many configurations. Go to BergaraUSA.com for more details

RIMFIRE SERIES

RIMFIRE SERIES

The Rimfire Series is the natural evolution of Bergara continuing its journey forward. Due to the fact that we have been making highly accurate rimfire barrels on an OEM basis for over a decade, we are confident that we can deliver exceptional performance and relevant features that make your rimfire shooting experience more successful.

With our advanced expertise in engineering, we combined two distinct platforms that serve completely different needs such as plinking and hunting as well as serious competition shooting.

The semi-automatic BXR series is ideal for plinking and hunting. The series bridges the gap between mass produced models and boutique brands. The BXR series is compatible with certain Ruger® 10/22® components and is available in either chromoly steel or carbon fiber tensioned steel.

The B-14R is specifically designed for long range rimfire shooting, training, and competing. It features a full-size 700 footprint and accepts many after-market components including stocks, triggers, and mounts. The push-feed action sports dual extractors and a full-size detachable magazine.

BXR

BERGARA ACADEMY

Several years ago our company was able to acquire an incredible piece of property in Belt, Montana with 22,000 private acres. Located just outside of Great Falls, we've been able to put our rifles, as well as ourselves, through all the rigors that the Big Sky Country affords. We are now inviting select groups to share in our little piece of paradise. We are calling it "The Bergara Academy." Here, in a high-altitude shooting environment unlike any other, we'll put you through intense training sessions that will elevate your long-range shooting skills.

3-Day Precision Rifle/Advanced Long-Range Hunter

\$1895

This course teaches the student basic fundamentals in long rifle shooting at distances up to and beyond 1000 yards. Some of the topics taught will be the following.

- Firearms Safety
- Rifle Design and Construction
- Basic Marksmanship Fundamentals
- Scope Theory and Adjustments
- Positional Shooting
- Effects of Wind
- Range Estimation
- Care and Cleaning
- Basic Ballistics
- Understanding Mills
- Range Estimation Utilizing Mills
- Rapid Bolt Manipulation Drills

3-Day Advanced Precision Rifle Level II or Advanced Long-Range Hunter Level II

\$1895

*Attendees wanting to attend the 3-Day Advanced Precision Rifle Level II or Advanced Long-Range Hunter Level II Course must first complete the 3-Day Precision Rifle/Long-Range Hunter Course.

- Advanced Ballistics
- Multiple Target Engagements
- Effects of Wind and Weather
- Shooter/Spotter Dialogue
- Cold Bore Shots
- Advanced Mil Dot Training
- Engaging Targets out to 1500 yards
- Understanding Mirage
- Hold Over vs. POA POI
- Understanding Ballistic Data

Academy attendees have the option of adding additional days to their stay to include world-class Montana fly-fishing or prairie dog shooting.
